SOLRE35

Asia Pacific Region

VERSATILE

- Dual power sources
- Solar charge or batteries
- Solar panel charges even in low light

FLEXIBLE

- Folding design allows 180° or 360° use
- 2 light modes –bright area light and amber nightlight

BRIGHT

- Eight LEDs for excellent area lighting – 66 lumens in the “up” position
- Reflective mirror increases light output

LONG-LASTING

- 2.5 hours of bright light from 5 hours of solar charge
- 165 hours using alkaline “D” cells

Dual power sources make sure you never have to interrupt your outdoor activities. The SOLRE35's solar panel folds out to maximize sun exposure for charging and the high-tech material charges even in low light. For longer lasting light, the unit also uses “D” cell batteries. It provides bright, hands-free illumination for your home or campsite.

Before Using Your Flashlight:
Please read all instructions and cautionary markings on the package and light
